

# Attention: Protected grow facility owners

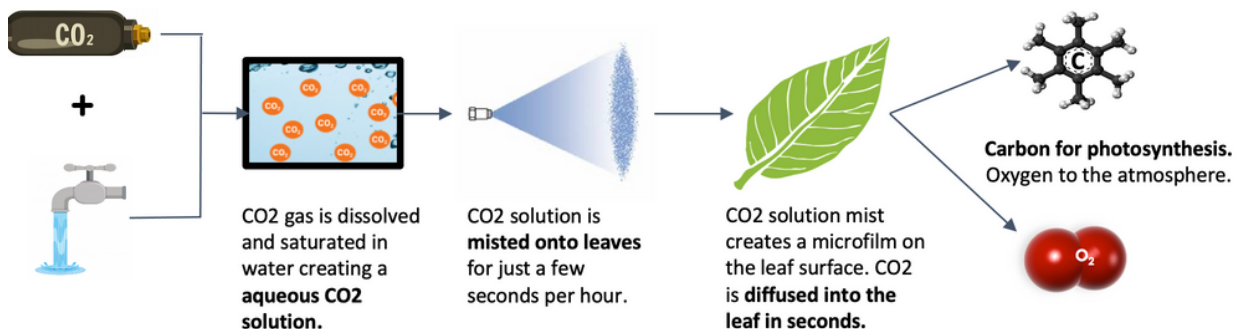

Looking to optimize your open protected grow facility?  
Struggling to deliver CO<sub>2</sub> while venting your greenhouse?  
Looking to increase profits by boosting yields?

Supports ALL protected structures:

- Greenhouses
- Shade houses
- Net houses
- Tunnels
- Hoop houses

Here's how CO<sub>2</sub> GRO's technology works:

Data from recent trials:

Crop	Results
Peppers	20-30% more yield
Cherry tomatoes	10% more yield and over 20% more value
Cucumbers	20-30% more yield
Roses	20% more yield, more higher grade stems
Young plants (liners)	15% more production from crops saved
Lettuce	10-20% more yield
Pathogens	Powdery mildew reduction in all cases
CO <sub>2</sub>	Reduce waste and cost by 95%
